About Me

Passionate and dedicated software engineering student currently pursuing my Bachelor degree with a deep passion for web development. Actively engaged in self-learning and personal projects that have equipped me with technical skills in JavaScript, React-Native and React. Eager to apply knowledge and enthusiasm to real-world projects through volunteer work, contributing to the team while continuing to learn and grow. Aiming to help create user-friendly and visually appealing web applications while gaining hands-on experience in the industry.

Certifications

- **Web Development Fundamentals**
  Youth Career Institute
  December 2022 - March 2023

- **Responsive Web Design**
  freeCodeCamp Organization
